

Lamella Fan Type Grinding Discs

With Zirconium Corundum

- Very long service life due to hard zirconium corundum.
- Excellent grinding properties until completely used up.
- Self-sharpening of the lamella, therefore, no clogging.
- Even finish without scores and scratches.
- Low noise level.
- Application without additional backing disc.

Application:

De-burring, smoothing, removal of rust from steel, stainless steel, cast iron, alum, hard plastics, wood, stone.
For working of welds, grinding of paint, lacquer and filler.

With fibre backing disc

- Backing disc made of several layers of fibreglass.

Ø mm	Bore mm	Min ¹	Fibre Backed Grit	Disc Type	Art. No.	Pack/Qty.
100	16	1,500	36	Arched	0578 100 536	10
			60		0578 100 560	
			80		0578 100 580	

Eco Flap Disc

Zirconia Corundum

- Long service life
- 115 mm diameter, 22.2 mm bore
- Max. speed 80 m/s

Ø mm	Bore mm	Grit	Art. No.	Pack/Qty
