

Contact Spray

helps eliminate ignition problems

- High water displacing properties.
- Cures and prevents faults in the ignition and electrical systems caused by dampness.

Contents ml	Art. No.	P. Qty.
300	0890 100	12/1

Contact SL

transparent protection lacquer

- Insulates, protects and seals all electrical connections.
- Protects against electrical shorts in high and low power circuits and transformer motors.
- Seals battery terminals and protects against water, weak acids and alkalis.

Contents ml	Art. No.	P. Qty.
200	0893 70	12/1

Contact SW

special spray wash

- Special spray wash for contacts and electronic construction parts.
- Removes colophonium residues.
- Will clean badly soiled electrical appliances, plate bars, electrical construction parts, relays and plug strips.
- Compatible with most plastic and common construction materials.

Contents ml	Art. No.	P. Qty.
200	0893 65	12/1

Contact OL

oxidation solvent

- Cleaning agent for electrical contacts.
- Removes oxide and sulphide layers, resin, oil and dirt.
- Eliminates crackling noises.
- Compatible with most common construction materials.
- Does not contain halogen.

Contents ml	Art. No.	P. Qty.
200	0893 60	12/1

Contact OS

oxidation prevention

- For new electrical contacts, switches and electromechanical engine parts.
- Long term oxidation prevention.
- Will remove dirt, resin and oil deposits.
