

BOND+SEAL

Elastic and versatile PU adhesive and sealant.

Areas of application:

For various kinds of bonded joints and sealing jobs on substrates such as metal, painted surfaces, wood, stone, concrete and plastic (polyester and rigid PVC).

Cartridge

Colour	Contents	Art. No.	Pack Qty.
white	310ml	0890 100 1	1/12/24
grey	310ml	0890 100 2	1/12/24
black	310ml	0890 100 3	1/12/24
dark brown	310ml	0890 100 4	1/12/24
light brown	310ml	0890 100 5	1/12/24
sand beige	310ml	0890 100 6	1/12/24

Bag

Colour	Contents	Art. No.	Pack Qty.
white	400ml	0890 100 111	12
grey	400ml	0890 100 112	12
black	400ml	0890 100 113	12
white	600ml	0890 100 181	1
grey	600ml	0890 100 182	1
black	600ml	0890 100 183	1

Tube

Colour	Contents	Art. No.	Pack Qty.
white	70ml	0890 100 11	1/24
grey	70ml	0890 100 31	1/24

▶ All-purpose application.

Your advantage:

- Outstanding adhesive power on various materials and surfaces

▶ Elastic with high ductility.

Your advantage:

- Joining of identical and different materials possible.
- Compensates for varying expansion rates of different materials.
- Insulates against vibrations and sound.

▶ Long skin formation time.

Your advantage:

- Enables bonding or sealing of complicated or very large components.
- Joined parts can be repositioned.

▶ Can be sanded and painted over.

Your advantage:

- Mechanically workable after skin has formed and paintable without activation of the surface (confirm compatibility with paint by preliminary testing!).

▶ Certified for use with food (ISEGA certificate).

Your advantage:

- Health safe in fully cured state.
- Suitable for bonding or sealing in food processing plants.

▶ Non-corrosive.

Your advantage:

- Prevents metal corrosion.

▶ Odourless.

▶ Silicone free.
