

# CU 800

**Resistant to high temperatures and pressures, highly adhesive copper lubricating, release and corrosion protection paste.**

### Use:

- Brakes: disc brake pad reverse side (prevents squealing), fasteners, pivot points, and self adjusting mechanisms.
- Battery terminals: contact protection.
- Welding equipment: nozzles of gas welding guns (prevents build up of deposits).
- Others: screwed connections, exhaust manifold studs/nuts, spark plug threads, bearings, pivots, links and sliding surfaces.

▶ Very high resistance.

#### **Your advantages:**

- Temperature range from -40°C to 1200°C.
- Resistant to water, alkaline solutions and acids.
- Extremely adhesive.

▶ Long lasting lubricating effect.

#### **Your advantage:**

- Provides long term protection against burning together and seizing, cold welding, wear, corrosion and frictional corrosion.

▶ Silicone free.
