

WGF 130 Multi Purpose Grease

Colour: black

- Lithium based grease containing Molybdenum Disulphide (MoS₂).
- Ideal wheel bearings.
- Under stress conditions it forms a solid, lubricating film on the running surfaces.
- Reduces friction and therefore prevents undue wear.
- Prolongs service periods.
- Protects against corrosion.
- Water-resistant.
- Temperature resistant from -30°C to 130°C, for short periods up to 150°C.
