

## HEK 5000 Resin Remover Concentrate

- Specially suitable for fast cleaning of portable circular saw blades, circular saw blades for stationary use, planing blades and cutter heads.
- Prior to use dilute water 1:2.
- For cleaning use nylon or plastic brushes.
- After a short reaction time resin residues and other soiling will loosen up. Remains can be wiped off the surface with a cloth.

**Warning:** Not to be used on aluminium or alloy components.

### Tap

Dispenser tap for use when container is on ORSY rack

Contents	Art. No.	P/Qty
500ml	<b>0893 611</b>	1/12

Description	Art. No.	P/Qty
Dispenser Tap	<b>0891 302 01</b>	1

## WOODSLIDE Saw/Planer Bed Lubricator and Resin Neutraliser.

- Woodslide neutralises resin - so chips and sawdust do not adhere to machine components.
- Lubricates saw or planer beds etc.
- Prevents corrosion on bright finished machine tables.
- Dispers moisture.
- Cleans adjusting wheels, manual spindles, sizing stops, etc.
- Silicone free.
- Suitable for: Joinery shops, furniture manufacturers, shop fitters, especially suitable for pine furniture manufacturers.

### Application:

Use sprayer to apply woodslide to wood working machines. This provides an ideal lubricating film. Do not over apply woodslide. Over application does not increase lubrication.
