

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

WIT-PE 1000, 1400ml (B)

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	24.03.2022	10643875-00001	Date of first issue: 24.03.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name:WIT-PE 1000, 1400ml (B)

Product code : 5918605140 (B)

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	:	Construction material, Dual-component adhesive Professional use product
Recommended restrictions on use	:	Not applicable

1.3 Details of the supplier of the safety data sheet

Company	: Wurth UK Ltd 1 Centurion Way Erith, Kent
Telephone	: +44 (0)3300 555 444
Telefax	: +44 (0)3300 555 666
E-mail address of person responsible for the SDS	: prodsafe@wuerth.com

1.4 Emergency telephone number

+44 (0)870 190 6777

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Acute toxicity, Category 4	H302: Harmful if swallowed.
Skin corrosion, Sub-category 1A	H314: Causes severe skin burns and eye damage.
Serious eye damage, Category 1	H318: Causes serious eye damage.
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

WIT-PE 1000, 1400ml (B)

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	24.03.2022	10643875-00001	Date of first issue: 24.03.2022

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Hazard pictograms	:		
Signal word	:	Danger	
Hazard statements	:	H302 Harmful if swallowed.H314 Causes severe skin burns and eye damage.H317 May cause an allergic skin reaction.	
Precautionary statements	:		

Hazardous components which must be listed on the label: 2,2,4(or 2,4,4)-Trimethylhexane-1,6-diamine m-phenylenebis(methylamine) 2,4,6-Tris{(Dimethylamino)methyl}phenol p-Toluenesulphonic acid (containing a maximum of 5 % H2SO4)

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature

: Amines

WIT-PE 1000, 1400ml (B)

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice

- : In the case of accident or if you feel unwell, seek medical advice immediately.
 - When symptoms persist or in all cases of doubt seek medical advice.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Version 1.0	Revision Date: 24.03.2022		DS Number: 643875-00001	Date of last issue: - Date of first issue: 24.03.2022	
Prote	Protection of first-aiders		First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).		
lf inh	If inhaled		If breathing is di	ve to fresh air. give artificial respiration. fficult, give oxygen. ention immediately.	
In ca	In case of skin contact		for at least 15 m and shoes. Get medical atte Wash clothing b	ct, immediately flush skin with plenty of water inutes while removing contaminated clothing ention immediately. efore reuse. n shoes before reuse.	
In ca	se of eye contact	:	for at least 15 m If easy to do, rer	ct, immediately flush eyes with plenty of water inutes. nove contact lens, if worn. ention immediately.	
lf sw	If swallowed		If vomiting occur Call a physician Rinse mouth tho	O NOT induce vomiting. Is have person lean forward. or poison control centre immediately. Proughly with water. Ining by mouth to an unconscious person.	
4.2 Most	important symptoms a	nd (effects, both acu	te and delaved	
Risk		:	Harmful if swalld	owed. Ilergic skin reaction. eye damage.	
			Causes digestive	e tract burns.	
4.3 Indic:	ation of any immediate	me	dical attention ar	nd special treatment needed	
	tment	:		tically and supportively.

	Specific ods	c extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do			

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures			
Personal precautions :	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).		
6.2 Environmental precautions			

Environmental precautions : Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and material for containment and cleaning up

 Methods for cleaning up Soak up with inert absorbent material For large spills, provide dyking or othe ment to keep material from spreading be pumped, store recovered material Clean up remaining materials from sp bent. Local or national regulations may app posal of this material, as well as those employed in the cleanup of releases. mine which regulations are applicable Sections 13 and 15 of this SDS provid certain local or national requirements. 	er appropriate contain- If dyked material can in appropriate container. ill with suitable absor- ly to releases and dis- e materials and items You will need to deter- le information regarding

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling	
Technical measures :	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation :	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling :	Do not get on skin or clothing. Avoid breathing dust, fume, gas, mist, vapours or spray. Do not breathe dust or mist. Do not swallow. Do not get in eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures :	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use.

7.2 Conditions for safe storage, including any incompatibilities

	Requirements for storage areas and containers	:	Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.
	Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Explosives
	Storage period	:	18 Months
	Recommended storage tem- perature	:	5 - 25 °C
7.3	Specific end use(s)		Nu late e statue
	Specific use(s)	:	No data available

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

WIT-PE 1000, 1400ml (B)

Version	Revision Date:	SDS Number:	Date of last issue: -

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Quartz (SiO2)	14808-60-7	TWA (Respirable fraction)	0.1 mg/m3 (Silica)	GB EH40
	Further inform age.	nation: Capable of ca	using cancer and/or heritable	e genetic dam-
		TWA (Respirable dust)	0.1 mg/m3	2004/37/EC
	Further information: Carcinogens or mutagens			

These substance(s) are inextricably bound in the product and therefore do not contribute to a dust inhalation hazard.

Quartz (SiO2)

Derived No Effect Level (DNEL):

Substance name	End Use	Exposure routes	Potential health ef- fects	Value
m- phe- nylenebis(methylamin e)	Workers	Inhalation	Long-term systemic effects	1.2 mg/m3
	Workers	Inhalation	Long-term local ef- fects	0.2 mg/m3
	Workers	Skin contact	Long-term systemic effects	0.33 mg/kg bw/day
2,2,4(or 2,4,4)- Trimethylhexane-1,6- diamine	Consumers	Ingestion	Long-term systemic effects	0.05 mg/kg bw/day
p-Toluenesulphonic acid (containing a maximum of 5 % H2SO4)	Workers	Inhalation	Long-term systemic effects	53.6 mg/m3
	Workers	Skin contact	Long-term systemic effects	7.6 mg/kg bw/day
	Consumers	Inhalation	Long-term systemic effects	8.7 mg/m3
	Consumers	Skin contact	Long-term systemic effects	2.5 mg/kg bw/day
	Consumers	Ingestion	Long-term systemic effects	2.5 mg/kg bw/day

Predicted No Effect Concentration (PNEC):

8.2 Exposure controls

Engineering measures

Minimize workplace exposure concentrations. If sufficient ventilation is unavailable, use with local exhaust ventilation.

Personal protective equipment

Eye protection	 Wear the following personal protective equipment: Chemical resistant goggles must be worn. If splashes are likely to occur, wear: Face-shield Equipment should conform to BS EN 166
	Equipment should conform to bo Ely 100

Hand protection

Material	: Nitrile rubber	
Break through time	: > 480 min	
Glove thickness	: 0.7 mm	

WIT-PE 1000, 1400ml (B)

Skin a	and body protection	sistance data and an assessme tial.		e protective clothing based on chemical re- l an assessment of the local exposure poten- t be avoided by using impervious protective aprons, boots, etc).
Resp	iratory protection	:	: If adequate local exhaust ventilation is not available or exp sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Equipment should conform to BS EN 14387	
Fil	lter type	:	Combined particu	lates and organic vapour type (A-P)

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance	:	paste
Colour	:	grey, red
Odour	:	characteristic
Odour Threshold	:	No data available
рН	:	substance/mixture is non-soluble (in water)
Melting point/freezing point	:	No data available
Initial boiling point and boiling range	:	No data available
Flash point	:	Not applicable
Evaporation rate	:	Not applicable
Flammability (solid, gas)	:	Not classified as a flammability hazard
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

SECTION 10: Stability and reactivity

10.1 Reactivity

Not classified as a reactivity hazard.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : Can react with strong oxidizing agents.

10.4 Conditions to avoid

(Conditions to avoid	:	None known.

10.5 Incompatible materials

Materials to avoid : Oxidizing agents

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

levels of 0.1% or higher.

12.7 Other adverse effects

No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	:	Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.
Contaminated packaging	:	Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.
Waste Code	:	The following Waste Codes are only suggestions:
		used product 08 04 09, waste adhesives and sealants containing organic solvents or other hazardous substances
		unused product 08 04 09, waste adhesives and sealants containing organic solvents or other hazardous substances
		uncleaned packagings 15 01 10, packaging containing residues of or contaminated by hazardous substances

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
