## The innovative universal plug...

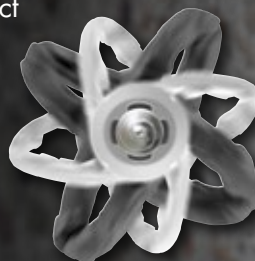

# SHARK® TWIST

### Quick and easy installation

- Easy: Can be set flush using just one finger without the need for a hammer
- Fast: Very easy insertion of the screw
- Versatile: For screws with wood threads and metric threads
- Flexible: Each plug size can be combined with several screw diameters

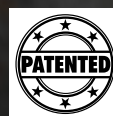

### High level of safety (ETA approved)

- Innovative: 8-fold knotting with extremely large surface contact
- Tested: High load values
- Optimised: Low installation torque and high overtorque
- No rotation of the plug in the drill hole
- Resistant to rotting, weathering and ageing

**EXTRA:** Thanks to the special plastic composition of the SHARK® TWIST, even screws and bolts with metric threads can be screwed in without any problems. For example, threaded fittings or rods for suspended items in plumbing installations or metric bolts.
